RE: Reference for Mr Zelko Pernic Managing Director of External Building Contractors Pty Ltd

To Whom It May Concern:

External Building Contractors Pty Ltd (EBC) were engaged by Built as a subcontractor to supply & install Aluminium Composite Panel Cladding on the Ferrari Maserati Project Waterloo with project completion date February 2010.

External Building Contractor's worked on the Ferrari Maserati Project which I was the project manger. The Aluminium Composite Panel design was extremely complicated and very detailed. EBC were able to construct the Architectural Design accurately which can be seen on the actual project. EBC's team reviewed and overcame design problems with the cooperation of the design team. EBC's Team takes ownership and is proud of the end product.

EBC's experience was evident when reading and modifying Aluminium Composite Panel cladding design drawing details to achieve the Architects overall design.

I have no hesitation in recommending EBC as they are well respected in their field.

Yours sincerely

Adrian Sicari
Project Manager
